ROYAL ICING PRACTICE

- PIPING BASICS -

HOW TO HOLD A PIPING BAG

1. Use your dominant hand and place bulk of bag in palm
2. Use palm and/or fingers to squeeze various pressures
3. NOTE: brace bag with opposite hand for better control

DOTS

1. Place tip near surface + gently squeeze until desired size.
(Keep tip low and let icing bloom up around it)
2. Release pressure and lift away

TEARDROPS

1. Pipe a large dot - let icing bloom up around tip
2. Pull tip downward + release pressure.

LINES

1. Gently squeeze + connect to surface. Lift off surface while squeezing, and let icing fall as you pipe.
2. Release pressure about 1/2" from end point and touch down
